CARBON FIBER SUPPLY CHAIN

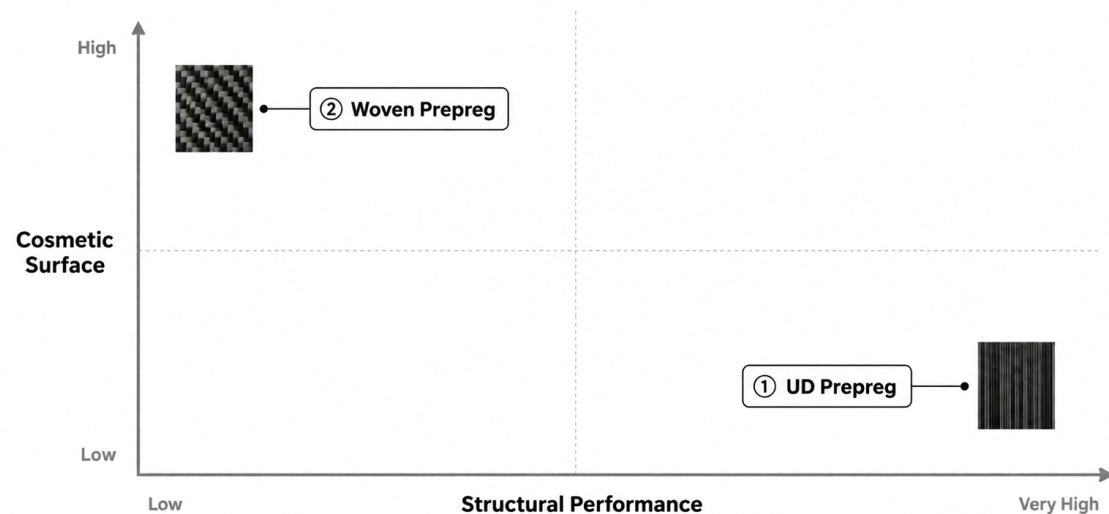

Key Insight

Currently, Vietnam still relies on importing carbon fiber from China and Japan, which is then woven into carbon fiber fabric domestically. However, starting in 2026, a Chinese manufacturer entered the Vietnamese market and are expected to have the capability to manufacture carbon fiber locally.

CARBON PREPREG MANUFACTURING INSIGHT

Prepreg Selection Matrix

- ✓ UD prepreg preferred for load-bearing structures.
- ✓ Woven prepreg improves cosmetic appearance.
- ✓ Material selection depends on end-use requirements.

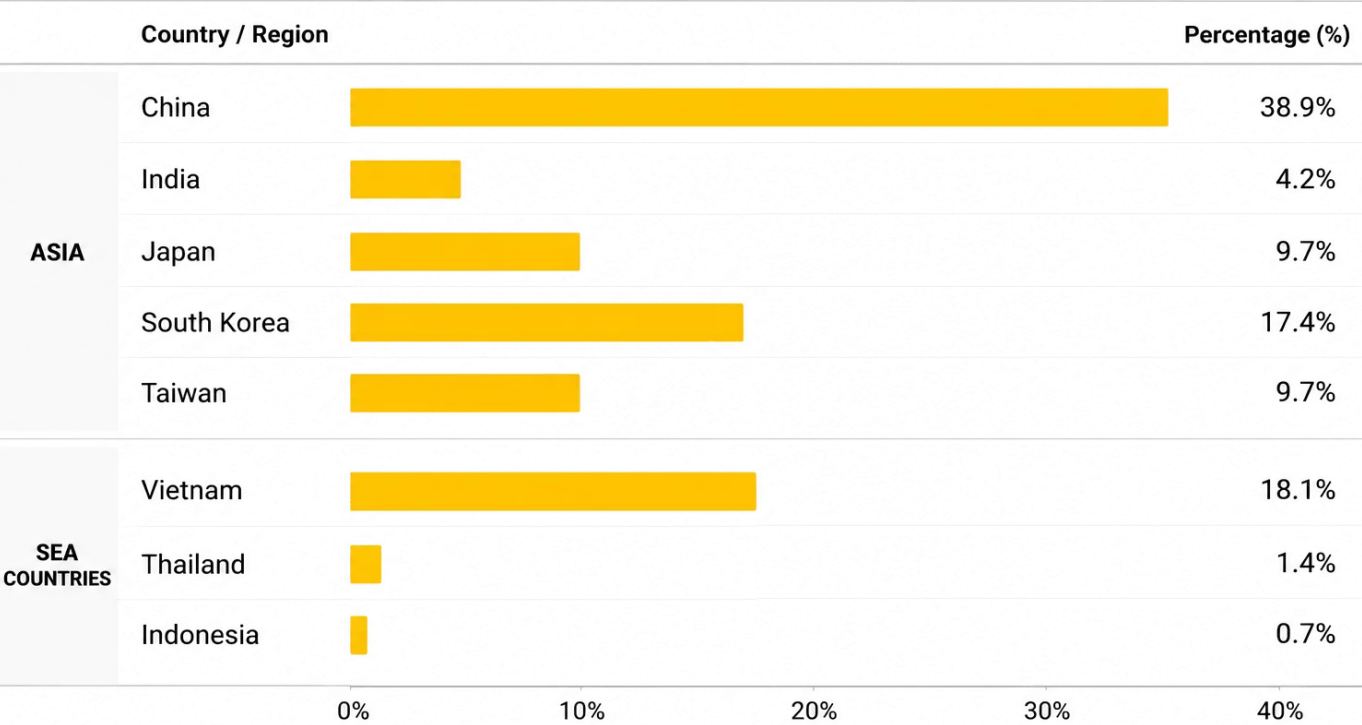

Key Insight

The Vietnamese carbon fiber prepreg market is dominated by two major manufacturers—one Japanese-owned and one South Korean-owned. There is another carbon fiber prepreg manufacturer in Vietnam, but it produces exclusively for internal use within its global group and does not offer OEM services. As such, it is not covered in this report.

COMPOSITE FORMING INSIGHT

Carbon Prepreg

Market Share by Country / Region

Key Insight

In Asia, China and South Korea are currently the leading countries in terms of the number of carbon prepreg manufacturers. Within Southeast Asia, Vietnam has the largest number of carbon prepreg manufacturing facilities, making it the region's leading production hub for carbon prepreg. Vietnam is making a strong push into drone technology. Several Vietnamese-owned manufacturers are expanding into the production of carbon fiber drone bodies and other carbon fiber composite products.

VIETNAM SUPPLIER LANDSCAPE

Category	Company	Core Capability	Profile	Contact
Carbon Fiber	Tor*** / Mit*** / Tei***	Carbon Fiber & Tow Manufacturing	 View Profile	Restricted
Prepreg	*** Composite / *** Materials	UD Prepreg · Woven Prepreg	 View Profile	Restricted
Composite Forming	Company * / Company * / Company *	Compression Molding · Autoclave · CNC Machining	 View Profile	Restricted

 Key Insight

Highly Recommended Vendors*.

**Detailed supplier profiles and contact information are available upon request.*
